REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Regarding claim 45

The prior art of record neither anticipates nor fairly and reasonably teaches a data processing method using a computer network for converting environmental performance data into meaningful and readily understandable information for use by consumers as an aid in their selection of a product or service for purchase and by businesses to facilitate awareness and consideration of their products or services through advertising comprising, *inter alia*, the step of developing environmental performance scores for the models by sales-weighting the environmental performance values of the environmental data components by the forecasts of sales.

Regarding claim 15

Claim 15 is cast as a more specific variation of claim 45 and particularly recites that the product or service of interest is a vehicle product. This variation is allowable for reasons similar to those presented for claim 45.

Art Unit: 3625

The most remarkable prior art of record is to The American Council for an Energy-Efficient Economy (ACEEE). As reported in the Office action mailed April 6, 2004, ACEEE established a web site which identifies and ranks cars and trucks for environmental performance. Data is processed into ratings in accordance with an algorithm to identify the most environmentally sensitive vehicles. However, it is noted that none of the evidence relied upon in detailing the ACEEE algorithm teaches that environmental performance scores for product models (or vehicle models) are developed by sales-weighting environmental performance values of environmental data components by the forecasts of sales.

None of the prior art of record remedies the above-noted deficiency in ACEEE.

The rejections under 35 USC 101 held in the previous Office action mailed June 15, 2005 are herein vacated in view of Ex parte Lundgren (BPAI October 2005).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
